PROFESSIONAL SUMMARY

Detail-oriented Computer Systems Technology student with a strong foundation in IT troubleshooting, network administration, and full-stack development. Adept at diagnosing and resolving technical issues—including hardware/software challenges, POS system maintenance, and network connectivity problems—in fast-paced environments. Eager to leverage technical skills and passion for live event technology to deliver top-notch onsite IT support as a Venue IT Intern at Live Nation Entertainment.

WORK EXPERIENCE

Junior Web Developer

Skill Squirrel | Remote

September 2024 – December 2024

- Designed and implemented reusable React components that optimized load times by 15%, ensuring consistent performance across platforms.
- Collaborated with cross-functional teams to troubleshoot technical issues and streamline deployments using GitHub CI/CD, resulting in a 25% faster deployment cycle.
- Conducted thorough debugging and code reviews, reducing post-deployment issues by 20% and upholding high service standards—key for fast-paced event environments.

Web Developer

MyKolachi Karahi & BBQ House | Mississauga, Ontario

January 2024 – April 2024

- Developed a responsive online ordering system that improved customer satisfaction by 30% and reduced order processing time by 25% through effective troubleshooting and UI optimization.
- Engineered a clock-in/out system with ASP.NET and C# that enhanced workforce efficiency by 40%, emphasizing accurate time tracking and system reliability.
- Collaborated with technical and operational teams in an Agile environment, ensuring swift resolution of technical issues and smooth operations during peak business hours.

Freelance Web Developer (Capstone Project)

Sheridan HR Group

January 2025 – April 2025

- Redesigned a client's website with e-commerce and invoice generation capabilities while ensuring technical robustness and system reliability.
- Coordinated with HR and IT teams to troubleshoot and resolve issues promptly, ensuring minimal downtime and uninterrupted user access.
